## The Challenge ...for K9 Handlers

- Are you a K9 Handler looking to provide the best emergency field care for your 4-legged partner?
- Are you looking for strategies on how to better listen to and support your K9s ongoing needs throughout your training, mission and down times? For example, can you tell when your K9 is thirsty and how to encourage them to drink more?
- Are you concerned that your veterinary training is clinic-based, not field-ready, and doesn't address the realities of your most common scenarios?

### Topics include:
