

# @PPT Master Release Notes

---

## 1/29/2024 K9 MEDIC 2024 Q1A

---

### SOP/Medical Changes

- No change

### Curriculum Content

- Removed anatomy terminology (cranial etc)
- New slides on Wound Packing Updates for better consistency/quality
- Improved description of Exertion Curves and Temperature has momentum (freight train analogy)
- Naloxone PPE update to include P100 mask if aerosolized opioid contamination
- Added TXA slide after fluid admin in shock slides (and duplicate in bleeding as reminder)
- Added Pharmacology (based on K9TCCC 2023) section after Naloxone (first four slides hidden by default covered in shock already)
- Added Burn Section (after bandaging) not needed in most classes but good for FAQ
- Added a few environmental hypothermia slides after burns (not needed in most classes, but good for FAQ)
- Added old snake bite lecture into main slide deck after toxins so all slides now included in main decks

### Formatting/Editing:

- Changes throughout incl:
  - o Consolidated shock slides
  - o Updated muzzle slides images
- Expanded detail slides on Human/K9 differences
- Added many video clips from online academy  
You don't need to play them if they will be covered/demo in station  
Primarily for large awareness level groups that won't have practice or able to see demo  
Also good back up to ensure consistency across instructors
- Added train the trainer and online academy slides at end

### Admin/Ops:

- Added "Dog house rules"
- Updated Class Logistics to include emergency meeting location
- Added more agenda slides for different events
- Added QR codes for events
- Slowly adding all bios (hide people not present)
- Broken into 5 files because addition of videos cause file size > 1GB

### Technical:

- Broken into 5 files because addition of videos cause file size > 1GB
- Video resolution set to 720p

---

## 5/20/2023 K9 MEDIC 23Q2A

---

### SOP/Medical Changes

- Addition of PowerGrip XXT Alternative method

### Curriculum Content

- Major HEAT section edits
  - o Added ABCs of Heat Injury Prevention
    - A Assessments (Know your dog, exertion curve trending etc)
    - B Body Conditioning (6 mile hikes are good etc)
    - C Climate Control (2wk acclimatization etc)
  - o Updated Heat section to reflect Minor/Moderate/Severe aka Stress/Exhaustion/Stroke to match current standards in DHS/DOD/VetALS etc

- New flow etc, so definitely review this before presenting it
- Updated terminology FROM "As Tight as You Can" to "Until the Bleeding Stops"  
Consistent with TCCC/TECC, focusses on desired outcome, prevents further injury
- Updated terminology FROM "Near Drowning" to "Drowning"  
(Joint Trauma System, Wilderness Medical Society, WHO and others all agree NOT to use "Near Drowning")

#### Formatting/Editing:

- Two new slide template sets added for variety

#### Slide Flow:

- Addition of Introductions slide and beginning of instructor slides

#### SubSets

- Addition of Conference SubSite #Conference-TopTopics-Non-Trauma (tagging in progress)

## 1/27/2023 K9 MEDIC 23Q1A

#### Workbook Notes

- Fixed typos below
- Added Colorado Pain Scale and Modified Glasgow Coma Score

#### Formatting/Editing:

- Fixed errors in fluid doses (see blue boxes in slides) all changed to:
  - Bleeding: 10mL/kg, 5mL/lb, 250mL
  - All Else: 20mL/kg, 10mL/lb, 500mL

## 1/17/2023 Master 2023 v010

#### Curriculum Content:

- Updated: Principles of Medical Handling slides
